## Have You

had a party call up and order goods, give the name (indistinctly) also the street and number. You did not get the name, but did get the street and number.

To get the NAME turn to the Pink Section of this book, find the street and number; you then locate party you are looking for

## ARE THEY USED?

Just six Price & Lee directories in customer's use for one year picked at random when the new one was issued.

What a tribute to the knowledge of the man who insists on complete representation throughout his city directory.

Your city directory is where advertising becomes a part of durability and use.

## DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE  
MEDIA DEPARTMENTAL OF THE ADVERTISING  
FEDERATION OF AMERICA

*The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:*

1. To consider, first, the interests of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all Departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

### "What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

## The Mortality of Advertising

**T**HE waste basket is the grave of millions of dollars  
worth of advertising every year. Keep your  
advertising out of the waste basket by using  
mediums that are not thrown away. The City Direc-  
tory is on the job 365 days in the year and no level  
headed man will think of the waste basket and the  
City Directory at the same time.

## Have You a Message for Men?

**L**ET the CITY DIRECTORY carry it home. Enlighten the public as to who you are, where you are and what you have to sell. The City Directory will keep your name before the public all the year 'round. Our copy writers will animate your advertising. And no man well supplied with mental gravity will differ from this: Perpetual Publicity Plus Personality Produces Patronage

**The Price & Lee Company**

## ARE THEY USED?

Just six Price & Lee directories in customer's use for one year picked at random when the new one was issued.

What a tribute to the knowledge of the man who insists on complete representation throughout his city directory.

Your city directory is where advertising becomes a part of durability and use.

## Common Sense

*About City Directory Circulation*

*The true value* of advertising circulation is *circulation consulted*.

*To be exact* by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

*To be conservative* we will eliminate the sixty Sundays and Holidays when no tests were made.

*For every thousand directories* sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

**1,067,500**

**Consultations or  
Circulation Consulted**

## DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE  
MEDIA DEPARTMENTAL OF THE ADVERTISING  
FEDERATION OF AMERICA

*The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:*

1. To consider, first, the interests of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all Departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

## The Mortality of Advertising

THE waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time.

## DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE  
MEDIA DEPARTMENTAL OF THE ADVERTISING  
FEDERATION OF AMERICA

*The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:*

1. To consider, first, the interests of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all Departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

## Have You

had a party call up and order goods, give the name  
(indistinctly) also the street and number. You did  
not get the name, but did get the street and number.

To get the NAME turn to the  
Pink Section of this book, find  
the street and number; you then  
locate party you are looking for

## Reference Advertising

HE who buys space in the City Directory buys  
advertising permanency. Every day thousands of  
business men all over the country search its classi-  
fied sections to find where nationally advertised goods  
may be purchased. City Directory ("Reference")  
Advertising is the completing girder in the bridge  
between dealer and consumer, and should be part of  
all national and local campaigns.

# Common Sense

## About City Directory Circulation

*The true value* of advertising circulation is *circulation consulted*.

*To be exact* by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

*To be conservative* we will eliminate the sixty Sundays and Holidays when no tests were made.

*For every thousand directories* sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days*, therefore—

$$1000 \times 3\frac{1}{2} \times 305 =$$

**1,067,500**
